

New physician joins DRMC Medical Staff

Dr. Spring McCann, Anesthesiologist and Pain Management Specialist, joins DRMC

DuBOIS - Spring McCann, MD, has joined DuBois Regional Medical Center's Anesthesiology Department, according to Raymond A. Graeca, president of DRMC.

As a board-certified anesthesiologist, she will work in the operating room at DRMC. She will also provide services to relieve or lessen chronic pain for patients through DRMC's Pain Management and Evaluation Service and Brookville Hospital's The Institute of Interventional Pain Management. McCann brings a new procedure to the clinics –fluoroscopy. Fluoroscopy is a medical imaging technique that uses x-rays to create a real time video image to examine the body inside. Seeing inside helps insure proper needle placement during an injection.

"We welcome Dr. McCann," Graeca said. "Her patients, especially at the pain management clinics, will benefit from her knowledge and compassion."

McCann received her bachelor's degree in biology from Washington & Jefferson College in Washington, Pa., where she graduated summa cum laude. She received her medical degree from the University of Pittsburgh and did an internship at Mercy hospital in Pittsburgh, a three-year residency in anesthesiology at the University of Pittsburgh Medical Center and a chronic pain fellowship at the University of Pittsburgh Medical Center.

McCann has been a part of several research projects and has presented studies to several groups. She is a member of the American Society of Anesthesiologists, Pennsylvania Society of Anesthesiologists, Western Pennsylvania Society of Anesthesiologists, Women's Medical Network and American Society of Interventional Pain Physicians

A native of Pittsburgh, she and her husband, John and their children, Johnny, age 6, and Connor, age 4 live in Clearfield.

DRMC, the physicians and staff of the DRMC Pain Management and Evaluation Center welcome Dr. McCann and her family.
