

DuBois Regional
Medical Center

Making the difference for life.

We are

during all construction!

PennDOT is realigning Dixon Avenue at South Main Street to create a four-way intersection at Hospital Avenue to make access to DRMC West much easier in the future.

Construction will take place from March to November 2010, and this may affect traffic flow around DRMC West during that time.

DRMC West, the Medical Arts Building and all other DRMC buildings will **always be open and available** during all phases of the PennDOT road construction project, though it may take a little longer to access the hospital.

If you have any concerns before a visit, please feel free to call DRMC at 375-INFO or go to www.drmc.org for the latest information.
